

"To me  
every hour of  
the light and dark  
is a miracle."  
—Walt Whitman

**HT Tina Aghassian**    **LC / Associate**

"During my childhood in a war-torn country where destruction was around us and we lived in constant drama, my father taught us to appreciate the subtleties and beauty of art and music. I visualized how my less than perfect neighborhood could be restored to a pure architectural oasis, and my dream continues on."

200 Park Avenue South, Ste. 1401  
New York, NY 10003

My motto... to create spaces that reveal the subtle nuances of light and capture the architect's intent. To understand the impact the lit environment has on its occupants. To help create spaces that are functional as well as inspirational to the end users. To use light as a tool to capture an audience... To strive for excellence. To use art, music and nature as inspiration...
